

Intended Use

- To freshen up grey and dull appearing veneered and solid furniture which were treated with nitro lacquers (one-component lacquers).
- Removes water and alcohol stains. Surfaces regain their natural appearance.
- Not to be used on untreated, waxed, dyed wood surfaces, lacquered softwoods/conifers, physically drying water lacquer surfaces and on woods varnished with lightening lacquers/UV-absorbers.

Characteristics

- Slightly dyed compound based on organic solvents combined with high-quality oils.
- Intensive cleaning properties.
- Provides a slight surface sheen.
- Reactivates nitrocellulose paint surfaces. Refreshes the lacquer – grey hazes disappear.
- Solvent-based product.

Application Notes

Check compatibility on an inconspicuous area first. Dampen a lint free cloth with Stain Remover and wipe off surface rapidly. After a short time (2-3 min.), wipe again with a dry cloth to obtain an even application without stains. Thoroughly wipe off excess material from the surface.

In case of very brittle lacquer coats and lacquer cracks extending into the wood, dark stains may develop, however, these will disappear after a while. Treated surfaces can be rebuilt by properly applying thin coats of Special Repair Lacquer PLUS or Furniture Lacquer. It is recommended to use lint free cotton cloths or cellular tissues, only (cloths made of synthetics or mixed fibres are unsuitable)

Physical Properties and Shelf Life

- Colour:** clear
Shelf life: minimum 2 years
(stored in unopened original container and lightproof at 12-28°C)

Safety Precautions

Please refer to label and material safety data sheet.

Disposal

- Do not allow product to enter drains or watercourses.
- Dispose of containers with the normal household waste/throw into the glass bin only when completely empty or dried out.
- Leftover material to be disposed of in accordance with EWC 080111 – *waste paint and varnish containing organic solvents or other dangerous substances.*

Packaging

On request.
